

10 x 14 Vermonter

Call toll-free: 1.866.297.3760

It is quite often the buildings surrounding the home that tie it all together into a cohesive, inviting living space. It is not just the main house, but the collection of other structures that have grown up around the central home over time that can give it that lived in, welcoming feel. It is the potting shed or the barn, with a weathered door and vibrant colored flower poking out of a window box. It is these things that put the occupant's signature on a home. These buildings and the personal touches help create a space that entices you to stay a while. A space that reassures you that there is nothing going on in the outside world that is more important than what is happening right in your own yard.

Creating a tranquil space that is dedicated to your hobby and surrounded by things of peace will help endure the test of everyday life. One of the best things you can do for your sanity is remove your physical self from the everyday routine of daily life. Indulge yourself with a space all your own, a little sanctuary that beckons to be investigated.

The Vermonter design comes in two sizes 8x10 and 10x14. The shed is perfect to fit your storage needs and cure the over flowing garage. The easiest way to overcome the guesswork to determining the size of a shed required to house your stuff is to gather all of the proposed items that will be sheltered and draw four lines around them. Measure the lines to calculate the desired size.

Specifications:

Overall dimensions:

8'6" H x 10'6" W x 14'6" L

Floor: Two 4x6x14 hemlock skids

2x4 hemlock floor framing 24" on center 1"

Plans \$50.00

Jamaica Cottage Shop, Inc. engineered the plans for our designs to do-it-yourself homeowners. The detailed plans include foundation options, a shopping list, and a color coded cut list. The trigonometry of the roof triangles has all been simplified with tracing the cut out roof templates. The plans are set for full dimensional lumber and provide a clear step-by-step path.

Complete Kit \$3,840

The rough sawn native Vermont lumber package has all the pieces cut and ready for assembly. It includes a cut and notched hemlock post and beam frame and pre cut pine siding. The fasteners, hardware, windows, and doors are included as well as the step by step plans. The kit is geared to a do-it-yourself homeowner with beginner knowledge of carpentry.
